Casaferra infrange i confini intrinseci dei materiali, prendendo come essenza la texture screziata dell'ossidazione del metallo e fondendo la ruvidezza della civiltà industriale e l'eleganza dell'arte della lacca in un nuovo simbolo estetico.

Casaferra[®]
Porcelain. Elegance. Sustainability

Casaferra transcends the inherent boundaries of materials, forging a new aesthetic symbol that fuses the ruggedness of industrial civilization with the refinement of lacquer art through its core expression of mottled metallic oxidation textures. The rust patterns mimic the naturally oxidized patina of metal, where varying depths of corrosion, asymmetric distribution, and textured relief effects coalesce to create a weather-beaten temporal quality. These time-engraved imprints on metallic surfaces gradually evolve into a distinctive industrial aesthetic, presenting a poetic beauty of weathering that narrates the passage of time through material transformation.
